

REITAS

present a webinar
for Investor Relations Officers and Senior Management of S-REITs

Positioning Your REIT for Index Inclusion for Greater Trading Liquidity and Investor Visibility

Indices such as the FTSE EPRA/NAREIT Index series, the SGX S-REIT index series, FTSE Straits Times Index and the MSCI index series are often heard about in the investment world. With the increased use of these indices by institutional investors in portfolio construction, strategic allocation and performance benchmarking, REITs that are included in key indices enjoy higher investor visibility, unitholder base diversification and greater trading liquidity.

The panel of speakers in this webinar will share their insights and knowledge on the ground rules, qualifying criteria, pathway to index inclusion and real case studies of SREITs which have walked the path. The takeaways from this webinar will be valuable knowledge that IROs use to enhance their IR strategy and value-add to their REIT's growth through inclusion in indices.

Date: **14 September 2020**
